

Disclaimer

General Information Only (No Financial Advice)

Trady (the “Interface”) is provided by Trady One Inc. (the “Company”), a company incorporated in the Republic of Panama. All information, content, and services appearing in the Interface are for general informational purposes only. Nothing on this Website constitutes financial, investment, legal, tax, or other professional advice, and it should not be construed as such. The Interface does not endorse or recommend any particular digital asset, trade, or strategy; any reference to specific tokens or markets is for informational purposes only and does not represent an endorsement by Trady One Inc. Users are solely responsible for their decisions. You should conduct your own due diligence and consider consulting qualified financial or legal professionals before making any investment or trading decisions based on information available in this Interface.

Decentralized Platform & User Responsibility

Trady is a non-custodial, decentralized trading interface. This means you trade directly with others via smart contracts on various blockchain networks, not through a custodial service or traditional intermediary. The Company does not control or operate the underlying decentralized protocols or smart contracts that facilitate your trades. We do not hold or manage your private keys or assets on your behalf. You are solely responsible for the security of your digital wallets, private keys, and account credentials. Transactions executed on blockchain networks via the Interface are irreversible and final; the Company cannot undo or modify any on-chain transaction. By using the Interface, you acknowledge that all trades and interactions you initiate are at your own risk and discretion. The Company bears no responsibility for the outcomes of your actions in the Interface, and you assume full responsibility for any gains or losses that may result.

Inherent Risks of Digital Asset Trading

Trading cryptocurrencies and other digital assets is inherently risky. The value of tokens and assets is highly volatile and may fluctuate dramatically or even drop to zero. Users of the Interface acknowledge that trading of tokens, NFTs, and other digital assets carries inherent risks and may result in financial loss. Past performance of any asset is not indicative of future results. There is no guarantee that you will achieve any particular outcome or profit by using the Interface. Additionally, digital asset markets operate 24/7 without centralized regulation, which means market conditions can change rapidly at any time. By using the Interface, you agree that the Company is not responsible for any losses, damages, or liabilities you may incur due

to market fluctuations or your trading activities. You assume all risk for any investment decisions or trades you make, and you use the Interface at your own risk.

No Warranties (Disclaimer of Warranties)

The services, information, and tools provided by the Interface are offered on an “as is” and “as available” basis without any warranties of any kind. To the fullest extent permitted by applicable law, the Company disclaims all representations and warranties, express or implied. This includes, but is not limited to, implied warranties of merchantability, fitness for a particular purpose, and non-infringement. No guarantee is made that the Interface will be uninterrupted, timely, secure, or error-free, or that any information or content provided is accurate, complete, or current. The Company does not guarantee the availability or functionality of any feature, the accuracy or reliability of data (such as pricing or analytics), or that the Interface will meet your expectations. All features and supported networks are subject to change without notice, and no software is perfect—there may be bugs, delays, technical glitches, or cybersecurity vulnerabilities. You acknowledge that use of the Interface is at your own discretion and risk, and that you will be solely responsible for any damage to your devices or loss of data that may result from any materials or services obtained through the Interface.

Limitation of Liability

Under no circumstances shall the Company (including its owners, affiliates, officers, directors, employees, or agents) be liable to you for any indirect, incidental, special, consequential, punitive, or exemplary damages arising out of or in connection with your access to, use of, or inability to use the Interface. This limitation of liability applies even if we have been advised of the possibility of such damages. In particular, the Company will not be liable for any loss of profits, loss of data, trading losses, loss of goodwill, business interruption, or any other commercial damages or losses that you may incur. The Interface is a purely technological tool, and the Company is not liable for any acts or omissions of other users, blockchain network failures, smart contract vulnerabilities, or third-party service issues. The Company’s total cumulative liability to any user for any claim or dispute arising out of the Interface shall not exceed the amount of fees (if any) you have paid to the Company for use of the Interface in the last 12 months. Some jurisdictions do not allow the exclusion or limitation of certain liabilities; to that extent, some of the above limitations may not apply to you, but will apply to the maximum extent permitted by law.

User Compliance and Prohibited Activities

By using the Interface, you agree to comply with all applicable laws and regulations of your jurisdiction and any jurisdiction in which you engage in trading through the Interface. You may NOT use the Interface for any unlawful, illicit, or harmful activities. Prohibited uses include, but are not limited to:

- **Illegal Activity:** Using the Interface for any purpose that violates any law or regulation, including money laundering, terrorism financing, sanctions evasion, or other financial crimes.
- **Fraud and Misrepresentation:** Engaging in any activity intended to defraud, deceive, or mislead the Company or other users.
- **Market Manipulation:** Any conduct that manipulates the market or violates fair market rules (e.g., wash trading, pumping and dumping, spoofing) or any activity that infringes upon the integrity of trading markets.
- **Cyberattacks and Technical Abuse:** Attempting to interfere with the Interface's operations or security, such as introducing malware, DDoS attacks, or exploiting smart contract vulnerabilities.
- **Any Other Unlawful Conduct:** Any activity that violates applicable laws or regulations in any relevant jurisdiction, or that infringes on the rights of others.

The Company reserves the right to suspend or terminate your access to the Interface if you engage in any prohibited conduct or if required by law. You are responsible for any legal consequences (including penalties or fines) that result from your improper use of the Interface. If you are subject to any legal restrictions or if any part of the Interface is illegal in your location, you must refrain from using the Interface. The availability of the Interface in any region does not imply that it is legal or permitted by local laws. Users are responsible for knowing and abiding by the laws that apply to them.

Indemnification

By using the Interface, you agree to indemnify and hold the Company harmless from and against any and all claims, losses, liabilities, damages, expenses, or costs (including reasonable attorneys' fees) arising out of or related to your use of the Interface, your violation of this Disclaimer or any applicable law, or your infringement of any rights of a third party. This means you will defend and reimburse the Company and its affiliates, officers, directors, employees, and agents for any claim or demand made by anyone (including government authorities) due to or arising from your breach of these terms, your unlawful activities, or your misuse of the Interface. You agree to cooperate fully with us in the defense of any such claim. This indemnification

obligation will survive any termination of your use of the Interface. Users explicitly acknowledge that this indemnity applies to any losses that may arise from reliance on information or services provided by the Interface.

Intellectual Property Notice

All content and materials available on the Interface—including (but not limited to) the website text, logos, graphics, interface design, software, and databases—are protected by copyright, trademark, and other intellectual property laws. The Interface and its content are the property of the Company or its licensors. Unauthorized copying, distribution, modification, or republication of any content from the Interface is strictly prohibited. You may not use any of the Company's trademarks, service marks, trade names, or logos in any manner likely to cause confusion about the owner or authorized user of such marks. Use of the Interface does not grant you any ownership or rights to the intellectual property contained therein. All rights are reserved by the Company and its content providers. You agree not to remove, obscure, or alter any copyright or proprietary notices on the Interface.

Final Acknowledgement

By accessing or using Trady.xyz or any related services, you acknowledge that you have read this Disclaimer, understand its contents, and agree to all of the above terms. If you do not agree with any part of this Disclaimer, you should immediately discontinue use of the Interface. The Company encourages you to periodically review this Disclaimer, as it may be updated from time to time. Your continued use of the Interface following any updates constitutes acceptance of those changes. This Disclaimer is provided in English, and any translation (if provided) is for convenience only. In the event of any conflict between the English version and a translated version, the English version shall prevail.
